Fan Shaft Kits

Solid Shaft Kit

Tubular Shaft Kit

Available For ALL Manufacturer's
Cooling Towers, Closed Circuit Fluid
Coolers and Evaporative Condensers

Complete Kit

EVAPCO's shaft kits include all the necessary components and instructions for repairs or replacements in one shipment!

Custom Design

EVAPCO can supply shaft kits for other manufacturers' equipment. All shaft kits for other manufacturers' equipment come with a 2-year replacement parts warranty!

Quality Components

All EVAPCO heavy duty, self aligning bearings are "Cooling Tower Rated" to have an L10 life from 75,000 - 125,000 hours. EVAPCO's tubular shafts are constructed with superior forged steel journals with a 0.25" wall thickness compared to competitor's welded steel tubular shaft.
