Announcing the Release of EVAPCO'S Inaugural Sustainability Report:

A Significant Milestone in Our Commitment to a Sustainable Future

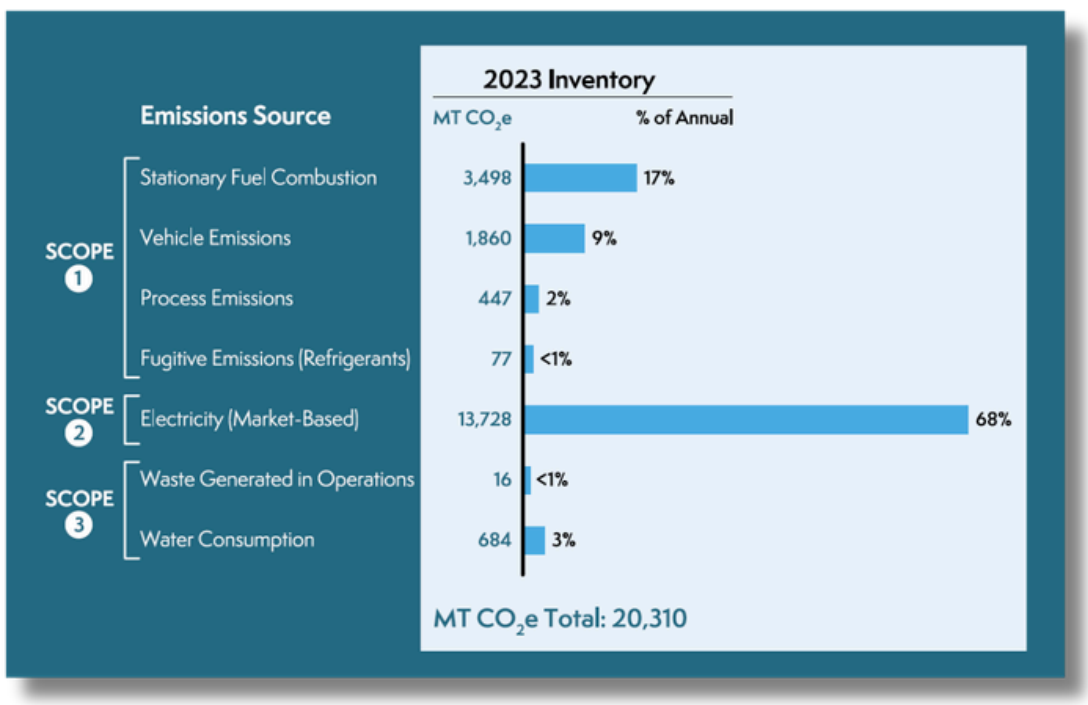

> "...we recognize that sustainability leadership is a mindset, not a task, and there is always more to be done. As we move forward, we remain committed to continuous improvement and innovation in our sustainability practices, benefiting the world for generations to come."
>
> – Pat Strine, EVAPCO President and Chief Operating Officer

We are proud to announce the release of our inaugural EVAPCO Sustainability Report, a pivotal achievement in our long-standing commitment to environmental stewardship. This report is the culmination of extensive work, rigorous data collection, and thorough analysis, reflecting the deep-rooted values that have guided our company since its founding.

Incorporating the Global Reporting Initiative (GRI) standards, the EVAPCO Sustainability Report provides a transparent and detailed account of our sustainable products, initiatives, and progress. This publication is an essential tool for both our internal and external stakeholders, offering insight into the baselines we have established this year, which will guide our future actions and enable us to measure our impact with greater precision.

This year also marks the completion of our first-ever Greenhouse Gas (GHG) inventory, a significant milestone that sheds light on our company's environmental impact with hard data. By quantifying our emissions, we are now better equipped to develop targeted strategies for reduction and to make informed decisions that will drive our sustainability efforts forward.

This report is not merely a document—it is a formal recognition and articulation of the work we have been prioritizing since our founding in 1976. We have consistently pursued environmentally responsible innovation with dedication and passion, from developing products that prioritize sustainability, such as those utilizing natural refrigerants to those that reduce water and energy use.

We invite you to explore the full report and learn more about our sustainability initiatives by clicking here to access the report.

Please reach out to me at dcline@evapco.com with any questions.

Best Regards,

Daryn S. Cline
